# BONSAI SOCIETY OF AUSTRALIA EXHIBITION 2025

A large display of exotic and Australian native trees

## Sean Hood Demonstration: Saturday 6<sup>th</sup> Sept 11am

Sean is an extremely talented bonsai artist who has been practising bonsai for over twenty years. From a modest beginning in a small nursery on the Central Coast and a period of study with Lee Wilson, Sean is now a popular demonstrator whose work has been represented in the National Bonsai and Penjing Collection in Canberra.

He enjoys everything about bonsai, from putting the first bend into young trees to working on old collected material. "A great tree can be made from any material with time and good technique".

Sean is equally comfortable working on spectacularly massive olives and water gums, as he is creating Shohin pines or maples.
